Novabase reorganizes its Digital TV business

Lisbon, 26 July 2012

With the aim of maximizing synergies between all of its businesses, Novabase has decided to reorganize its Digital TV operations.

Solutions geared toward TV operators will therefore be included in the Infrastructures & Managed Services (IMS) business. These businesses have similar operations and maturity levels and therefore their integration will lead to an increase in overall efficiency. Digital TV solutions that will become part of the IMS business accounted for a turnover of 12.79 M€ and EBITDA of 0.83 M€ during the first half of 2012.

The System-in-Package (SIP) solutions, however, will be transferred to the Venture Capital business. These offers, strongly supported by R&D and intellectual property investments, will find the appropriate platform for their future development in Novabase Capital, including creation of strategic partnerships and international distribution channels. During the first half of the year, these solutions accounted for turnover of 7.03 M€ and EBITDA of -0.96 M€.

These changes will come into force at the start of the second half of 2012. Accordingly, Novabase will disclose its results for Business Solutions, Infrastructures & Managed Services and Venture Capital as of the third quarter.
